

1. Do you see the need to develop a large public gathering space in Downtown Vancouver? If so, how would you support such an initiative?
2. If elected, what would you do to enhance public space in Vancouver to improve the experience throughout the year, day and night - specifically in the dark, wet winter months?
3. In the aftermath of the Stanley Cup Riots, there were calls to limit or prevent large gatherings in Vancouver. How do you think that the City should balance the need for safety and security with the desire of many residents to attend public gatherings within the city?
4. What do you think needs to be done in order to move people around Vancouver in a more active and sustainable way?
5. Vancouver voters select their city councillors at-large, which means that they lack strong neighbourhood representation. What are some solutions that you would support for the creation of greater neighbourhood representation in civic politics?
6. How should Council promote civic engagement with youth and other groups that are rarely represented in community decisions and Council deliberations?
7. What are your ideas to improve conditions for pedestrians in Vancouver? How can we bring life to the streets of Vancouver to keep them safe, interesting and accessible for people of all abilities?
8. What are your ideas to increase resident's opportunities for public expression?

Please send responses to anthony@vancouverpublicspace.ca with the subject heading Council Candidates' Survey.

Your responses will be posted on the VPSN's [Vancouver Votes](http://vancouvervotes.ca) website.
